EDUCATION

University of Illinois at Urbana-Champaign

May 2027

Bachelor of Science Astronomy + Data Science and Statistics, LAS James Scholar

Extracurriculars : Secretary and event coordinator Hindu YUVA, COZAD new venture challenge

WORK EXPERIENCE

Twinmind - Growth intern

May 2026 - August 2026

- Led growth initiatives across **SEO, GEO** (Generative Engine Optimization), content, web, and brand, improving TwinMind's **discoverability across traditional search and AI-driven discovery channels**.
- **Drove end-to-end growth experiments and launches**, spanning website optimization, creative campaigns, product storytelling, video, social distribution, and user research - from strategy and ideation through execution.

Satvik movement - Growth Intern

March 2026 – May 2026

- **Driving e-commerce setup and growth strategy** for India's largest community-driven health platform, serving an 8M+ subscriber base
- Designing **high-conversion Shopify** store pages using **Replo, Shogun, and Figma** to turn audience scale into revenue

Ocher Studio — Business & Growth Intern

Jan 2026 – May 2026

- Working at the intersection of **entrepreneurship and community impact**, advocating for revenue-driven models to support artisan livelihoods rather than charity-based approaches
- Supporting **early-stage growth initiatives through market research, exploration of new revenue channels, partnerships, and brand storytelling**

Founders Illinois Entrepreneurs – Head of Exploration at UIUC

Sept 2024 – Dec 2025

- Brought Antler investors to campus and ran workshops, fireside, and networking, reaching 100+ students and giving students **direct exposure to pre-seed VC**
- Led and recruited a cross-disciplinary team to scope and launch new projects each semester, building a stronger **pipeline of first-time builders** and **expanding community visibility**.
- Built an accessibility vertical and launched the “Exploring Entrepreneurship” series; helped non-startup majors see entrepreneurship as a career path and **grew participation ~4x**.

RESEARCH EXPERIENCE

UIUC Astronomy (Prof. Leslie Looney) - Undergraduate Researcher

May 2025–Present

- Process ALMA IRS3B data in CASA (calibration checks, multiscale tclean) to produce continuum/line FITS cubes and moment maps for **high-resolution structural analysis**.
- Build reproducible imaging pipelines (masking, Briggs/uv-taper choices) and analyze dust–line morphology and gas kinematics to **evaluate evidence for the “badminton-birdie” infall pattern**.

PROJECTS

Collectiv — AI-Powered Community Shopping (Hackathon Winner)

April 2025

- **Built pooled-order delivery MVP** in <24h; shared-cart + batch routing reduced per-order cost ~60%.
- **Prototyped order parsing, batch grouping, and prompt-based product optimization (Lovable + Adelo)**.
